

WHOLESALE CATALOG  
SPRING/SUMMER 2019

Yoga Democracy was founded in 2015 on the belief that our activewear shouldn't cost the earth. All of our fabrics are made from recycled fibers. We use fabric made from recycled water bottles and fishing nets for a significantly reduced environmental impact.

Our leggings have half the carbon footprint of the industry standard for synthetics while delivering the ultimate in performance, fit and style.

All our printed leggings feature artwork created by our own team of designers and artists. Our leggings are handcrafted in-house at the Yoga Democracy workshop in Arizona.
