Plating helps to protect the underlying metal from weathering and corrosion. Plated spring snaps most commonly used in light applications. Use plated products in light industrial applications, apparel, farming/agriculture, hobbies and sports. Can also be used as key accessories or in the household sphere. Choose material and plating dependent on application and corresponding strength of material.

Use resin when it is necessary to prevent destructive ingredients from penetrating the metal.

For home use, organization, and light applications where load rating is not an issue and cost is a priority.

Attachment Options:

Round Eye

Swivel

Open Eye

Fixed Eyelet

Loop/Strap

ROUND EYE:

Reinforced eye provides more strength than swivel, and isolates the rope or cable that goes through the eye.

SWIVEL: Eliminates tangling and allows for ease and flexibility of motion for attachments.

OPEN EYE: Use when rope/wire cannot be fed through eyelet opening. Designed to be closed with vice or hammer after attachment.

FIXED EYELET: Fixed, or stationary, eyelets are stronger than a swivel and keep the rope or attachment in place.

LOOP/STRAP: Rectangular loop/strap openings allow for straps and webbing attachments to be fed through cleanly and allow for ease of attachment.

PRODUCT USE DISCLAIMER:

UTILICARRY®
by Lucky Line

Useful Tools for Everyday Carry

UTILICARRY® by Lucky Line® is a quality product line designed specifically to cater to Everyday Carry (EDC) needs. What is EDC? EDC items are useful tools for Carry, Everyday. We understand that the EDC community embraces the need to have a necessary tool close at hand. Like the Boy Scout motto, “Be Prepared”, EDC enthusiasts are prepared. Need a flashlight in a sudden black out? They’ve got one on their keychain. Unwrapping birthday gifts at the park? They’re ready with a multi-tool. Forgot some important utensils while camping? They’ve got a knife, bottle opener, scissors, and other tools close at hand.

Some EDC fans have a kit complete with knife, safety whistle, flashlight and other tools that might be needed in an emergency. The key to effective EDC tools is remembering what is important in your life. This is unique to each person. What does your daily life look like? You may not go to the wilderness, but your keys might be misplaced frequently. You can use the Fish Hook Key Carrier as part of your EDC gear to keep your keys on your belt or bag. The right set of tools will be different for each person.

Each product in our UTILICARRY® line has been carefully selected for usefulness as an Everyday Carry item. Each product was chosen for quality, durability, price and efficiency. UtiliCarry’s flagship product, the Primo 12-in-1 Multi-Tool, incorporates a proprietary design and maximum usefulness. With products like the Primo 12-in-1 and all of the EDC items in the UTILICARRY® line, you can be confident that you’re prepared. For hikers in the mountains or techies on the go, UTILICARRY® has something for each person’s Everyday Carry needs.
